Glossary of Terms

N/A

Background

Arrived case members by Affiliate office totaled for each month of the federal fiscal year. Includes row combining sub-offices.

This report contains two tables. The first table is all arrivals in the time period. The second table is only URM arrivals (i.e. Minor Code = M4) in the time period. Both tables follow the same structure.

General Requirements

Filter to select Program Years which are federal fiscal year. The years in the drop down go from the current year back 25 years. For example, on 5/16/2016 the list of years goes back to 1992.

Checkbox "Include Assured / Unarrived date?" means include cases that have been assured, the assurance date was between the input date parameters and the case has not arrived yet. Also known as "assured unarrived".

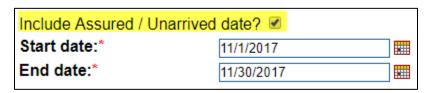

Figure 1. Illustration of checkbox.
