

IRIS Release Notes

5.1.2.7 – Released 12/22/2016

Pre-Arrival		
Description	Type	Ticket
AOR – Add additional CAM types The CAM AOR module was modified to allow for the entry and printing of derivative types C3, D2, D3, E2, E3, F2 and F3.	Bug	153069
eABN/eDOM fix Fixed an issue with the parsing of eABN/eDOM data that occurred when IOM sent data for two different ProFlights in the same transmission causing the correct ProFlight to be removed.	Bug	152941

Matching Grant		
Description	Type	Ticket
Matching Grant Data File Export Modified the data file export so that the files are directly downloaded onto the user's computer in a single zip file. Previously, IRIS emailed the data file, which is not a secure transmission path.	Enhancement	152940

Post-Arrival		
Description	Type	Ticket
RP Period Members Page Modified Q4, and Q5 on the member page to include "N/A" option as well as transmit the empty value on the data file. Logic was updated to handle the scenario where the individual is turning or over 18 based off date of birth compared to current system date.	Bug	153261
