

# IRIS Release Notes

5.2.1.8 – 04/11/2017

Pre-Arrival		
Description	Type	Ticket
<p><b>AOR Code Optimization</b></p> <p>Due to recent issues where data was intermittently not being saved in AORs, we are troubleshooting possible network issues. A bug in the IRIS code has been ruled out. However, in an attempt to speed up saving of AOR data in the QCH/QFM pop-up, the IRIS developer has done some code optimization. Now the saving of data will take less time, which will help to prevent this problem from occurring again.</p>	Enhancement	159474
<p><b>Manage Travel bug fix</b></p> <p>While fixing a bug with the Manage Travel notification in IRIS v.5.2.1, the developers introduced a new bug. The Manage Travel screen was only showing cases that included domestic flights. If only international flights had been scheduled, those case were not being included in the notification. That issue has been resolved.</p>	Bug	159920

Post-Arrival		
Description	Type	Ticket
<p><b>R&amp;P Period Report PDF</b></p> <p>Corrected spelling mistake in question 3. Relative to personal “assests” was changed to “assets”.</p>	Bug	159849
<p><b>Cultural Orientation Form</b></p> <p>The CO form was not showing for adults over 64 years of age.</p>	Bug	159876
<p><b>MG PPR Report</b></p> <p>Added a new multi-select filter “Case Priority” that provides the capability to run MG PPR report for SIV clients.</p>	Enhancement	159580

Matching Grant		
Description	Type	Ticket

Administration		
Description	Type	Ticket
<p><b>Custom Reports for R&amp;P Period Report Data</b></p> <p>The field "status" did not correctly determine the status of "Sent to RPC".</p>	Bug	159763
<p><b>IRIS-generated email timeout issue</b></p> <p>While attempting to send IRIS-generated emails to all IRIS members to announce the deployment of IRIS v.5.2.1.6, IRIS Support experienced a timeout in LIRS's instance. An adjustment has been made to a config file to extend the timeout value from 4 minutes to 6 minutes.</p>	Enhancement	159756
