

# IRIS Release Notes

5.3.5.2 – 12/12/2017

Pre-Arrival		
Description	Type	Ticket
<p><b>New Arrivals Report “Arrivals FY/CY by Affiliate and Site”</b></p> <p>Arrival by month report that is viewable by Affiliates.</p>	Enhancement	173801
<p><b>Pre-Case changes - Adv Search and Interests</b></p> <p>Made some verbiage and display improvements to the Pre-Case Advanced Search and Interest modules.</p>	Enhancement	172686
<p><b>Lautenberg AORs - PB/PB Family data</b></p> <p>Improved the Lautenberg AOR process to include the PB and PB Family data in marriage dropdowns and also on the printable Lautenberg AOR form to prevent users from having to reenter the data in the Anchor Family tab.</p>	Enhancement	170355
<p><b>Lautenberg AOR - deletion changes</b></p> <p>Improved the deletion process for Lautenberg AORs.</p>	Enhancement	172101
<p><b>eABN/eDOM - View eABN Imports notification changes</b></p> <p>Modified the View eABN Imports notification to fix issues and to make it easier to understand.</p>	Enhancement/ Bug	173797
<p><b>WRAPS Assurance Export - bug fix</b></p> <p>Fixed bug in the WRAPS export process that occurred when there was only one case in the previous day's assurance file OR all the cases from the previous day's export had been updated. The issue was that an incorrect “last assurance date” was displaying on the export screen. It did not affect the actual export.</p>	Bug	172818
<p><b>Reconciliation - bug fix</b></p> <p>Resolved issue where affiliates were able to see cases other than their own on the Reconciliation Report screen.</p>	Bug	173566
<p><b>Pre-Arrival Case Notes - bug fix</b></p> <p>Resolved issue where IRIS would erroneously navigate the affiliate to the VOLAG Notes screen instead of staying on the Pre-Arrival Case Notes screen upon saving a new note.</p>	Bug	173988
<p><b>IRIS Arrival Reconciliation Notification - bug fix</b></p> <p>Resolved issue where the link in the email that is sent to affiliates was not working.</p>	Bug	174283
<p><b>Update Minor Suitability Submitted Email Notification</b></p> <p>Case Prefix and Case Number is included in the email body for which the minor suitability report is submitted.</p>	Bug	174518

Post-Arrival		
Description	Type	Ticket
<p><b>90 Day Corrections Needed &amp; Timeliness Report</b></p> <p>Both the reports are viewable by Affiliates.</p>	Enhancement	173552
<p><b>90 Day Correction Needed &amp; Timeliness output to reflect correct input parameters</b></p> <p>Output report should display Month and Year correctly. Example: If Month = 'November' and Program Year = 2017 then the output report should display PY2017 November.</p>	Bug	173948
<p><b>Print Minor Suitability Report</b></p> <p>Pre/Post reports can be printed from the first page before any section is completed. The intent is to allow an affiliate to print a blank copy before completing any section.</p>	Enhancement	172187
<p><b>Case Header - added 90th day</b></p> <p>Added 90th Day to the Case Header.</p>	Enhancement	173225
<p><b>Update RP Period Report &amp; Member page out-migration logic</b></p> <p>RP Period Report: When Q1. Outmigration = 'Y' then Q3-Q5 will be disabled and grayed out</p> <p>RP Period Member: When Q2. Outmigration = 'Y' then Q3-Q6 will be disabled and grayed out</p>	Bug	174257
<p><b>Duplicate SSN</b></p> <p>Allow 0's to be entered without system prompting duplicate error message. 0's is an exception and will not be validated for duplicate SSN check.</p>	Bug	174517

Matching Grant		
Description	Type	Ticket

Administration		
Description	Type	Ticket
<p><b>Multi-Factor Authentication</b></p> <p>Resettlement Agency now has the option to enable multi-factor authentication.</p>	Enhancement	169258
<p><b>Update Case Note Tab Order</b></p>	Enhancement	173359

Administration		
Description	Type	Ticket
Clicking the tab key now moves the cursor from the "Short Description" to the Note. Previously, tabbing moved through each formatting button (i.e. spell check, Bold, Italic, Underline, etc.)		
<b>Update Custom Report IRIS_Case</b>  Add field [AvailabilityStatus]	Enhancement	173230
<b>Update Custom Report IRIS_MGCase</b>  IRIS_MGCase and IRIS_Individual has been joined by MGCaseID field instead of IRISCASEGUID to display joined cases.  <b>Note:</b> IRIS_Individual can be joined to IRIS_MGCase without the need for IRIS_Case. The logic have been updated to use MGCaseID instead of IRISCASEGUID.	Bug	173837
<b>Custom Reports - added PlacementCount field</b>  Added a "PlacementCount" field to the IRIS_Case Custom Reports data source, which will give a count of the number of times a case has been placed with an affiliate.	Enhancement	173799
<b>PII Email Notification changes - Travel Added &amp; Travel Changed</b>  Resolved an IRIS v.5.3.4 deployment glitch by removing the PA name from the Subject of the Travel Added and Travel Changed email notifications.	Bug	173790
<b>Previously Scheduled Travel Notification – remove PII</b>  Removed PII data from the Previously Scheduled Travel Notification. This notification was erroneously missed during the IRIS v.5.3.4 project to remove all PII from email notifications.	Enhancement	172591
<b>Test Site Forgot Password</b>  Forgot Password link sends an email to user's email address instance if the user's email as well as the configurable EmailOverride value.  Previously, in IRIS Test the email is not sent to the user. In IRIS Production, the email is sent to the user.	Enhancement	169258
<b>New eABN CustomReport</b>  Data source for system administrators to see detailed eABN transmission records	Enhancement	174499
