

IRIS Release Notes

5.4.1.1 – Released 6/8/2018

Pre-Arrival		
Description	Type	Ticket
<p>AORs – RAs now able to Close</p> <p>RAs will now be able to close an AOR when in anything but Open or Closed status.</p>	Enhancement	179936
<p>Interests - fixed tab issue</p> <p>Fixed issue where data was being displayed on the wrong tabs in Interests.</p>	Bug	179864
<p>Field Boxes - expanded to accommodate data</p> <p>Enlarged field boxes on Affiliate Maintenance and User Maintenance screens to allow all data to show.</p>	Enhancement	179861
<p>Email Notification - Travel Added to Closed Case</p> <p>Created a new email notification for RAs and affiliates to alert when travel has been added to a closed case.</p>	Enhancement	178005
<p>Email Notification - Travel Added to Unassured Case</p> <p>Created a new email notification for RAs and affiliates to alert when travel has been added to an unassured case.</p>	Enhancement	178007
<p>AOR/Interest - Transferred Out Status</p> <p>We used a new AOR/Interest status called "Transferred Out" when we did the RA-to-RA Pre-Case transfers. Also, some old P3 AORs contain a status of "2009 Returned" for RAs that were using IRIS back then. IRIS was modified to treat these statuses the same as the "Closed" status in IRIS.</p>	Enhancement	181240
<p>Travel - Display Leg No</p> <p>Leg Nos will now be displayed on the Travel Information and Travel Notices screen to aid in problem resolution when/if flights display out of order.</p>	Enhancement	181249
<p>Bug with BioData Case Cross Reference Import</p> <p>Corrected an issue where a case cross reference would be added to IRIS more than once when multiple biodata files are imported.</p> <p>This may occur if the cross referenced case is not in IRIS during one BioData import and then the cross referenced case is in IRIS during subsequent BioData Imports</p>	Bug	182458

Post-Arrival		
Description	Type	Ticket
