

# IRIS Release Notes

5.4.2.7– 08/06/2018

Pre-Arrival		
Description	Type	Ticket
<p><b>Assurance – WRAPS export file</b></p> <p>Due to policy change, modified the WRAPS assurance export file to include co-sponsor data (if it exists) even if there is a validated US Tie.</p>	Enhancement	187330
<p><b>WRAPS import – Summary screen</b></p> <p>Removed the travel information at the bottom of the WRAPS import Summary screen. It was not related to the actual import and it caused more confusion than it was helpful.</p>	Enhancement	185912
<p><b>AOR – Lautenberg bug</b></p> <p>Fixed issue where IRIS was allowing an affiliate to send a Lautenberg AOR to the RA when not all required fields were filled. Affiliate will now receive a pop-up that lists the screen and which required fields have not yet been completed.</p>	Bug	188205

Post-Arrival		
Description	Type	Ticket
<p><b>Modified Ability to Close Non-Refugee Cases</b></p> <p>Created a new rule that Affiliate users may not close IRIS non-refugee cases. Only an RA user may close these cases.</p>	Enhancement	187352
<p><b>MG: Unable to unenrolled members from a joined case</b></p> <p>The Affiliate receives a pop-up window displaying an error message while un-enrolling a member from a joined case</p>	Bug	187846
<p><b>MG: Unable to unenroll an individual from a joined case</b></p> <p>The Affiliate was unable to unenroll an individual from a joined case which was triggering an error pop-up related to employment</p> <p><b>Note:</b> The issue has been resolved by correcting the logic on the MG Edit screen</p>	Bug	187846
<p><b>Quarterly Consultation (QC) Custom Report Permission Issue</b></p> <p>Custom Report RA Admin and Custom Report Affiliate Admin roles were not able to view QC data sources. The roles have been updated to view all tables related to QC data sources.</p>	Bug	187029
<p><b>Duplicate records in section 'Discussion Points' on the QC Form</b></p> <p>For some QC reports, 'Discussion Points' 1-6 were repeated multiple times</p>	Bug	187243

Post-Arrival		
Description	Type	Ticket
<p><b>Note:</b> The duplicates have been marked as deleted in the database for existing records</p>		
<p><b>90-day follow-up report</b></p> <p>A new drop down value "NA" is added to Section IV. Q4: General Health Condition</p>	Enhancement	188293
<p><b>Update to Post-Arrival Suitability and 90-day follow-up Report</b></p> <p>If the case has not arrived and the Affiliate/RA clicks on "Pending" for Post-Arrival Suitability or the 90-day follow-up report, they are prompted with an error message: "You are not authorized to view the requested page." The error does not convey the message that the case has not arrived and that is the reason the forms are not displayed.</p> <p>The logic has been updated to gray out the "Pending" status and to display the message "The case has not arrived yet" when the mouse is hover over the status. The report will be available for editing once the case has arrived.</p>	Enhancement	188231
<p><b>Updates to PA Address</b></p> <ol style="list-style-type: none"> <li>1. Post-Arrival -&gt; Client Data grid will display Case Members with in addition to US Address for all the members</li> <li>2. By default, 'Same address as PA' checkbox will not be selected for all the case members. The checkbox 'Copy same address as PA for other case member(s)' should be checked off while adding an address for the PA member</li> </ol>	Bug	187621

Reports		
Description	Type	Ticket
<p><b>MG PPR Bug Fix</b></p> <p>Corrected an issue where Affiliates were excluded from the report if the reporting period starting and ending date spanned multiple program years and the Affiliate did not have MG for all those years.</p>	Bug	187225
<p><b>MG PPR Excel Formatting</b></p> <p>In the excel export, data in columns B2 and B3 were formatted as text making calculations difficult. Formatting was corrected to be a number rather than text.</p>	Bug	187225
<p><b>Improve Custom Report Expressions</b></p> <p>Custom report expressions now allow LIKE expressions. For example, LIKE '%closed%' searches a text field that contains the value closed. Expressions are entered from the report designer FIELDS tab.</p>	Enhancement	186820
<p><b>New US Tie Custom Report</b></p> <p>A new custom report data source for US Ties is available.</p>	Enhancement	187361

Reports		
Description	Type	Ticket
<b>Revise Custom Report IRIS_RPPERIODREPORT_CASE</b>  Field BNProvided was incorrectly displayed as values of either 0 (No) or 1 (Yes). There are cases where the RP report is submitted but the value is NULL such as when the case is a URM and the question is not applicable.	Bug	187847
