

IRIS Release Notes

5.6.0.7 – 6/20/2019

Administration		
Description	Type	Ticket
Custom Report – CO Assessments The CO Assessments Custom Report was timing out. The SQL View was optimized and now the report is working again.	Bug	220197
Minor Report Suitability Determination Resolved issue where read-only fields that allow multi-select values were not displaying on IRIS screens even though the data was in the database and was populated on the printable Minor Report.	Bug	220199
