

IRIS Release Notes

v.5.6.1.9 – 9/1/2019

Pre-Arrival		
Description	Type	Ticket
Assurance Notifications Previous fixes for the bug that was causing some assurances to not be included in the “All Cases to be Assured” and “Assurance Date Approaching” notifications did not correct the problem. Therefore, additional fixes have been deployed to Production.	Bug	224841

Post-Arrival		
Description	Type	Ticket
90 Day Follow-up Binding Issue Q16a on the 90 day follow-up printable document (pdf) didn't bind the value from the pre-arrival suitability form. The printable document (pdf) has been corrected to bind all the values from pre and post arrival suitability forms.	Bug	225151
Case Note Consolidation Draft Functionality The draft notes were only viewable to the user who created them. The functionality has been reverted back to allow any affiliate from the same office to view the draft notes.	Bug	225163
R&P Financial Tracking Issue The payment receipts added after the 90 th day was counted towards the R&P disbursed funds which was incorrect. The logic has been updated to only sum the receipts that are <= to the 90 th day. A tooltip for visual aid has been added to the payment receipts if the date is greater than the 90 th day.	Bug	225149

Administration		
Description	Type	Ticket
Admin Configuration - VOLAGLogoText field Fixed issue where we were unable to save changes in the Admin Configuration module for HIAS Archive due to the special formatting that is in the VOLAGLogoText field, which turns the font to lime green in the header to make it clear it is HIAS's Archive system.	Bug	225022
