

# IRIS Release Notes

5.7.0.4e – Released 10/27/2019

Administration		
Description	Type	Ticket
<b>R&amp;P Case Note</b>  Corrected an issue where case note mode was not saved if the mode selected was 'Field'.	Bug	229180

Matching Grant		
Description	Type	Ticket
<b>Inactive or Closed R&amp;P with Active MG Case</b>  An R&P case that is enrolled in MG may have the R&P case closed while the MG case remains enrolled. However, the IRIS MG File Export, MG Console, and 'standard reports' including the PPR do not include the MG case if the R&P case is closed. IRIS was updated to allow an enrolled MG case to be present in reports, MG file export and the MG console.	Enhancement	228022
