

IRIS Release Notes

5.7.2.2 – Released

Post-Arrival		
Description	Type	Ticket
<p>R&P Period Report</p> <p>Modified Question 4 (Is the minor enrolled in school?) on the Member report to not disable the question when a member arrives as a minor but turns 18 during the 90-day report period.</p>	Enhancement	229523

Matching Grant		
Description	Type	Ticket
<p>MG Data File Export</p> <p>Add fields IRIS IndID, IsEligibilityDateUsed, 120th Day, 180th Day to internal logging to help analysis with ORR interface. No change was made to the actual exported data file.</p>	Enhancement	232869

Reports		
Description	Type	Ticket
<p>MG Progress Report Drill Down Reports</p> <p>MG case ID and alien number have been added to the drill down reports.</p>	Enhancement	232870
<p>MG 120th and 180th Day Calculation without Time</p> <p>Calculate the 120th and 180th day without considering time so that dates are standardized with similar ORR calculations. Previously, comparison of dates between ORR and IRIS could differ in some situations.</p>	Enhancement	232868
<p>Custom Report Virtual Data Source</p> <p>Enabled the use of virtual data sources. A virtual data source is a report that may be used in another report. This helps produce complex reports in some scenarios.</p> <p>The data sources on the data source tab now have hyperlinks that show which reports use the data source.</p>	Enhancement	232171

Administration		
Description	Type	Ticket
<p>IRIS-Generated Emails</p> <p>Partially reversed a prior change related to IRIS-generated emails. Now you will always see all recipients in the Case Transfer and WRAPS Export emails. For all others, which would mostly just include regular IRIS email notifications, you will be the only recipient in the “To” section of the email.</p>	Bug	232572
<p>Case Note Column Width</p> <p>Increased width of “Note Description” and decreased width of “Case Mode” and “Interpretation Provided” to improve readability and reduce printed page count.</p>	Enhancement	232172
