

# IRIS Release Notes

5.7.5 – Released 5/20/2020

Pre-Arrival		
Description	Type	Ticket
<p><b>Lautenberg AOR – Signature changes</b></p> <p>Modified the Signature section of the P2 FSU Lautenberg AOR form to print U.S. Tie name and the name of the affiliate who assisted in completing the form.</p>	Enhancement	242411
<p><b>Lautenberg AOR - Section III Addresses</b></p> <p>Tweaked the font for the addresses in Section III so they are larger and more legible on the P2 FSU Lautenberg AOR form.</p>	Enhancement	243378
<p><b>Assurance - IRIS-generated duplicate emails</b></p> <p>Resolved issue where IRIS-generated "Assurance Ready" emails were being duplicated.</p>	Bug	242772
<p><b>Travel warning</b></p> <p>Improved the wording of the "individual not found" warning message to provide more helpful information. When conditions trigger the warning, it displays in the two travel related Standard Reports and the View eABN Imports dashboard notification.</p>	Enhancement	241121

Post-Arrival		
Description	Type	Ticket
<p><b>Cultural Orientation – Custom Fields</b></p> <p>Made Cultural Orientation custom fields editable after cases have been submitted to RAs.</p>	Bug	242153

Matching Grant		
Description	Type	Ticket
<p><b>Matching Grant – Quarterly Consultation Report</b></p> <p>New MG Quarterly Consultation Report. Renamed previous QC report to "R&amp;P QC Report." Change dashboard link from "Quarterly Consultation Console" to "Affiliate Quarterly Report Console."</p>	Enhancement	241049
<p><b>MG Enrollments by Affiliate and Site – Summary</b></p> <p>Fixed a bug where, if the start and end date filter is used, the total row include extra cases. Now if start and end date filter is used, the Total Slots columns are removed because the dates may cross fiscal years. Also, if start and end date filer is used,</p>	Bug	242776

Matching Grant		
Description	Type	Ticket
the report will include cases for multiple fiscal years as applicable.		
<b>MG File Export Verification</b>  Add another check to the MG file export verification process. The ORR MG Progress Report calculates B1 as B2 + B3 + B4. The IRIS MG Progress Report calculates B1 as individuals who have reached day 120 in the reporting period. There is a potential for deltas between IRIS and ORR if all 120 day reports have not been submitted. The new verify step checks if $B1 = B2 + B3 + B4$ . If it is not equal, there will be a delta with ORR.	Enhancement	243336

Administration		
Description	Type	Ticket
<b>IOM Interface and Admin Configuration Modules – Travel Configuration</b>  Modifications to ensure that travel configurations can only be performed in one place. <ul style="list-style-type: none"> <li>- Removed “Interface Admin” button from Manage Travel screen.</li> </ul> Changes to Admin Configuration <ul style="list-style-type: none"> <li>- Alphabetized categories in Admin Configuration Module.</li> <li>- Removed eABNInterval field (obsolete) and eABNVersion field from the Travel category.</li> <li>- Added Pre-arrival category and moved relevant existing variables from other categories into the new category.</li> </ul>	Enhancement	241409
<b>Scheduled Tasks bug</b>  Corrected bug related to notification “MG - Status Change Daily Digest.”	Bug	241928
<b>Affiliate Maintenance – Affiliate Profile</b>  Fixed bug in the Affiliate Profile screen regarding how all of the fiscal years are being determined. The Employment/Outmigration/Timeliness/Corrections grid was calculating fiscal year incorrectly.	Bug	241805
